Muslim Pilgrimage in Europe Ingvild Flakerud 2017-07-20 In spite of Islam's long history in Europe and the growing number of Muslims resident in Europe, little research exists on Muslim pilgrimage in Europe. This collection of eleven chapters is the first systematic attempt to fill this lacuna in an emerging research field. Placing the pilgrims' practices and experiences centre stage, scholars from history, anthropology, religious studies, sociology, and art history examine historical and contemporary hajj and non-hajj pilgrimage to sites outside and within Europe. Sources include online travelogues, ethnographic data, biographic information, and material and performative culture. The interlocutors are European-born Muslims, converts to Islam, and Muslim migrants to Europe, in addition to people who identify themselves with other faiths. Most interlocutors reside in Albania, Bosnia-Herzegovina, Italy, France, the Netherlands, Great Britain, and Norway. This book identifies four courses of developments: Muslims resident in Europe continue to travel to Mecca and Medina, and to visit shrine sites located elsewhere in the Middle East and North Africa. Secondly, there is a revival of pilgrimage to old pilgrimage sites in South-eastern Europe. Thirdly, new Muslim pilgrimage sites and practices are being established in Western Europe. Fourthly, Muslims visit long-established Christian pilgrimage sites in Europe. These practices point to processes of continuity, revitalization, and innovation in the practice of Muslim pilgrimage in Europe. Linked to changing sectarian, political, and economic circumstances, pilgrimage sites are dynamic places of intra-religious as well as inter-religious conflict and collaboration, while pilgrimage experiences in multiple ways also transform the individual and affect the home-community.

Health and Well-Being in Islamic Societies Harold G. Koenig 2014-05-17 From the first hospitals to pioneering pharmacy techniques, the early history of medicine reflects the groundbreaking contributions of Islamic physicians and scientists. Less recognized, however, is the impact of Islam on the health and daily health practices of modern day Muslims. Meticulously documented with current research sources and relevant religious texts, *Health and Well-Being in Islamic Societies* sheds light on the relationships between Muslim beliefs and physical, psychological, and social health. Background chapters trace Muslim thought on health and healing as it has evolved over the centuries to the present. The authors provide even-handed comparisons with Christianity as the two traditions approach medical and ethical questions, and with Christian populations in terms of health outcomes, assuring coverage that is not only objective but also empirically sound and clinically useful. And as the concluding chapters show, understanding of these similarities and differences can lead to better care for clients, cost-effective services for communities, and healthier Muslim populations in general. Included among the book's topics: Muslim beliefs about health, healing, and healthcare Similarities and differences between Muslim and Christian health beliefs Impact of religion on physical, mental, and community health in Muslims Understanding how Islam influences health Applications for clinical practice Implications for public health Cultural awareness is critical to improving both individual client health and public health on a global scale. *Health and Well-Being in Islamic Societies* is essential reading for clinical and health psychologists, psychiatrists, social workers, and nurses, and will be informative for the general reader as well.

Coconut Robin Laurance 2019-07-01 Coconuts have been around for longer than Homo sapiens; they have been turned into art, taken part in religious rituals and been a sign of wealth and success. They have saved lives, not only by providing nourishment, but also as part of the charcoal filters in First World War gas masks. It was coconuts that triggered the mutiny on the Bounty, and coconuts that saved the life of the man who went on to become the 35th President of the United States. The coconut has long been the unseen player in the endeavours of industrialists and bomb makers, physicians and silversmiths, smugglers and snake charmers. To this day, coconuts shape the lives of people around the world. At a time when coconut products crowd the shelves of supermarkets, health food shops and beauty salons, Robin Laurance looks beyond the oils and health drinks to uncover the unexpected, often surprising, and vital roles played by the coconut palm and its nut in times past and present.

Minors' Crimes in Saudi Arabia Hajed A. Alotaibi 2020-01-24 This book investigates a number of thematic problems related to the Saudi Arabian juvenile detention system. These issues concern the lack of codification and consolidation, an unclear determination of the age of puberty, the misclassification of juveniles' crimes, and gross inconsistency in the penalties meted out. This study employs a mixed methodology involving both analytical and statistical approaches to the problem. It examines judicial applications from three courts in Riyadh to clarify the traditional classification for juveniles' crimes (namely, Hudud, Qisas and Ta'zir crimes).

Bible versus Quran David Alalade 2015-12-23 This special edition volume unites the author's boldly original and critically well-received Twin Books, 'Holy Bible Holy Koran I and II', to present the author's compelling vision as originally intended, and under its first and formerly rejected title, 'Bible vs Quran'. The two most celebrated books of all time; the Holy Bible and the Noble Quran, are revealed here in a fascinating and undeniably unique point of view. The brilliant delivery of his approach applies a strikingly overt side-by-side perspective of the legendary books and uncovers a collection of

testimonies, commandments, and startling revelations, that aim to remedy and resolve the issues that matter most; a from our daily bread, and the people we love, hurt, sex, and murder, to the sinister and dysfunctional qualities of the human condition. This volume also includes a bonus chapter; 'Sympathy For The Samaritan'.

Muslim Civil Society and the Politics of Religious Freedom in Turkey Jeremy F. Walton 2017-04-03 The sway of Islam in political life is an unavoidable topic of debate in Turkey today. Secularists, Islamists, and liberals alike understand the Turkish state to be the primary arbiter of Islam's place in Turkey--as the coup attempt of July 2016 and its aftermath have dramatically illustrated. Yet this emphasis on the state ignores the influence of another field of political action in relation to Islam, that of civil society. Based on ethnographic research conducted in Istanbul and Ankara, *Muslim Civil Society and the Politics of Religious Freedom in Turkey* is Jeremy F. Walton's inquiry into the political and religious practices of contemporary Turkish-Muslim Nongovernmental Organizations. Since the mid-1980s, Turkey has witnessed an efflorescence of NGOs in tandem with a neoliberal turn in domestic economic policies and electoral politics. One major effect of this neoliberal turn has been the emergence of a vibrant Muslim civil society, which has decentered and transformed the Turkish state's relationship to Islam. Muslim NGOs champion religious freedom as a paramount political ideal and marshal a distinctive, nongovernmental politics of religious freedom to advocate this ideal. Walton's accomplished study offers a fine-grained perspective on this nongovernmental politics of religious freedom and the institutions and communities from which it emerges.

Unveiling the Time of Jacob's Trouble Deborah Jean Stearn 2014-05-23 Astounding evidence that pinpoints the timing for Jesus' return. The information in this book demolishes the boundaries and prohibitions of Christian, extra-biblical law. For years we have been led to believe it is sinful to speculate about the time of Jesus' return a result of the misinterpretation of Matthew 24 and Mark 13 by the violation of the Law of Context. However, the secrets of the timing for Jesus' return are actually hidden in the heavens and the biblical feasts, and this book will prove we are indeed admonished to watch for His appearing, and to number our days. In this fascinating Israel-centered and scientific study, you will explore the major calendars of the world only one of which reveals its true age of nearly 6,000 years. That same calendar contains the message of salvation-history in its months, and in its days it mirrors prophetic history from creation week. You will also discover: - The cycles of the heavenly lights are synchronous with prophetic history. - The constellations foretell the first and second comings of Jesus. - Tetrad moon eclipses in history mirrored the birth of Israel in 1948 and Israel's recapture of Jerusalem in 1967. - The tetrad moon eclipses due in 2014/2015 mark the beginning of Daniel's 70th week. - The timetable for the Great Tribulation is built into the Hebrew calendar and feasts. - The significance of the year 6000 on the Gregorian calendar. These are just some of the astounding evidences that all point to the same time for the arrival of Jesus in the year 6000. Unveiling the TIME of Jacob's Trouble is a must read for any serious truth seeker.

Anglophone Press in Constantinople: The Levant Herald & Eastern Express (1859-1878) Burhan Çağlar 2021-12-01 The first newspapers in the Ottoman lands generally focused on commercial and financial news, but as the time passed, they developed a richer content portfolio with a wider range of topics. The Levant Herald (1856-1914) was one of the long-lasting newspapers issued by British subjects under Ottoman rule. From this perspective, it witnessed the Empire's last decades. Although The Levant Herald was published in Ottoman territory, it also circulated in Europe and Britain. Due to this, the newspaper had a somewhat international character. The main purpose of the

newspaper was to give news concerning the financial, commercial and economic developments in the Near East, the Levant in particular, and to highlight the investment opportunities in the region. It was aimed at not only the British Levantine groups in the Ottoman territory and their local and commercial partners, but also the entire European community that had settled in the east. The proprietors of the newspaper changed several times during its lifecycle and due to the regular threat of closure, it had to be issued under different names. The names that the newspaper used were as follows: The Levant Herald, The Constantinople Messenger, The Eastern Express, The Levant Herald & Eastern Express.

Experimenting on a Small Planet William W. Hay 2021-09-27 This book is a thorough introduction to climate science and global change. The author is a geologist who has spent much of his life investigating the climate of Earth from a time when it was warm and dinosaurs roamed the land, to today's changing climate. Bill Hay takes you on a journey to understand how the climate system works. He explores how humans are unintentionally conducting a grand uncontrolled experiment which is leading to unanticipated changes. We follow the twisting path of seemingly unrelated discoveries in physics, chemistry, biology, geology, and even mathematics to learn how they led to our present knowledge of how our planet works. He explains why the weather is becoming increasingly chaotic as our planet warms at a rate far faster than at any time in its geologic past. He speculates on possible future outcomes, and suggests that nature itself may make some unexpected course corrections. Although the book is written for the layman with little knowledge of science or mathematics, it includes information from many diverse fields to provide even those actively working in the field of climatology with a broader view of this developing drama. *Experimenting on a Small Planet* is a must read for anyone having more than a casual interest in global warming and climate change - one of the most important and challenging issues of our time. This new edition includes actual data from climate science into 2021. Numerous Powerpoint slides can be downloaded to allow lecturers and teachers to more effectively use the book as a basis for climate change education.

Patterns of Wisdom in Safavid Iran Janis Esots 2021-11-18 The exceptional intellectual richness of seventeenth-century Safavid Iran is epitomised by the philosophical school of Isfahan, and in particular by its ostensible founder, Mir Damad (d. 1631), and his great student Mulla Sadra (aka Sadr al-Din Shirazi, d. 1636). Equally important to the school is the apophatic wisdom of Rajab 'Ali Tabrizi that followed later (d. 1669/70). However, despite these philosophers' renown, the identification of the 'philosophical school of Isfahan' was only

proposed in 1956, by the celebrated French Iranologist Henry Corbin, who noted the unifying Islamic Neoplatonist character of some 20 thinkers and spiritual figures; this grouping has subsequently remained unchallenged for some fifty years. In this highly original work, Janis Esots investigates the legitimacy of the term 'school', delving into the complex philosophies of these three major Shi'i figures and drawing comparisons between them. The author makes the case that Mulla Sadra's thought is independent and actually incompatible with the thoughts of Mir Damad and Rajab Ali Tabrizi. This not only presents a new way of thinking about how we understand the 'school of Isfahan', it also identifies Mir Damad and Rajab Ali Tabrizi as pioneers in their own right.

Toward a Global Middle Ages Bryan C. Keene 2019-09-03 This important and overdue book examines illuminated manuscripts and other book arts of the Global Middle Ages. Illuminated manuscripts and illustrated or decorated books—like today's museums—preserve a rich array of information about how premodern peoples conceived of and perceived the world, its many cultures, and everyone's place in it. Often a Eurocentric field of study, manuscripts are prisms through which we can glimpse the interconnected global history of humanity. *Toward a Global Middle Ages* is the first publication to examine decorated books produced across the globe during the period traditionally known as medieval. Through essays and case studies, the volume's multidisciplinary contributors expand the historiography, chronology, and geography of manuscript studies to embrace a diversity of objects, individuals, narratives, and materials from Africa, Asia, Australasia, and the Americas—an approach that both engages with and contributes to the emerging field of scholarly inquiry known as the Global Middle Ages. Featuring 160 color illustrations, this wide-ranging and provocative collection is intended for all who are interested in engaging in a dialogue about how books and other textual objects contributed to world-making strategies from about 400 to 1600.

Inclusion in the American Military David E. Rohall 2017-08-04 The U.S. military can be thought of as a microcosm of American society, bringing in

people from diverse backgrounds and history to defend one nation. Military leaders must address the same issues and concerns as those found in the civilian world, including exclusion, segregation, and discrimination. In some cases, the military has led the nation by creating policies of inclusion before civilian laws required them to do so. In other causes, the military has lagged behind the larger society. The goal of this book is to provide an overview of the ways in which diversity has been addressed in the military by providing information about particular forms of diversity including race, ethnicity, religion, gender, and sexuality. Subject matter experts provide their insights into the roles that each of these groups have played in the U.S. armed services as well as the laws, rules, and regulations regarding their participation. Ultimately, the authors utilize this information as a way to better understand military diversity and the unique ways that individuals incorporate the military into their sense identity.

Channeling Moroccanness Becky L. Schulthies 2020-12-01 What does it mean to connect as a people through mass media? This book approaches that question by exploring how Moroccans engage communicative failure as they seek to shape social and political relations in urban Fez. Over the last decade, laments of language and media failure in Fez have focused not just on social relations that used to be and have been lost but also on what ought to be and had yet to be realized. Such laments have transpired in a range of communication channels, from objects such as devotional prayer beads and remote controls; to interactional forms such as storytelling, dress styles, and orthography; to media platforms like television news, religious stations, or WhatsApp group chats. *Channeling Moroccanness* examines these laments as ways of speaking that created Moroccanness, the feeling of participating in the ongoing formations of Moroccan relationality. Rather than furthering the discourse about Morocco's conflict between liberal secularists and religious conservatives, this ethnography shows the subtle range of ideologies and practices evoked in Fassi homes to calibrate Moroccan sociality and political consciousness.

The Weekly Khutbah Volume 3: 2015-2016 Saiyan Islam 2017-12-30 Every week Friday comes and for us Muslims, Friday is very crucial in the sense we have our Jummah prayers. Along with the Jummah prayers we have our weekly sermons. What happens is that most of us tend to forget the sermons delivered by the Imams. So I thought of this system of writing down all the sermons so that the knowledge we gain gets preserved. Furthermore the sisters who are mostly unable to attend the Jummah prayer in many countries do not get the chance to learn from the weekly sermons. The males can easily record their learning and teach the women at their home. All the sermons are from the Imams from the Masjids I attend weekly and the Hadiths mentioned are from their own sermons. Sometimes the Imams may tend to refer to weak Hadiths, I have tried my best to classify them as much as possible. May Allah have mercy upon us all and may we get guided to the Straight Path, Ameen.

Break all the Borders Ariel I. Ahram 2019-01-09 Since 2011, civil wars and state failure have wracked the Arab world, underlying the misalignment between national identity and political borders. In *Break all the Borders*, Ariel I. Ahram examines the separatist movements that aimed to remake those borders and create new independent states. With detailed studies of the Islamic State in Iraq and Syria, the federalists in eastern Libya, the southern resistance in Yemen, and Kurdish nationalist parties, Ahram explains how separatists captured territory and handled the tasks of rebel governance, including managing oil exports, electricity grids, and irrigation networks. Ahram emphasizes that the separatism arose not just as an opportunistic response to state collapse. Rather, separatists drew inspiration from the legacy of Woodrow Wilson and ideal of self-determination. They sought to reinstate political autonomy that had been lost during the early and mid-twentieth century. Speaking to the international community, separatist promised a more just and stable world order. In Yemen, Syria, Iraq, and Libya, they served as key allies against radical Islamic groups. Yet their hopes for international recognition have gone unfulfilled. Separatism is symptomatic of the contradictions in sovereignty and statehood in the Arab world. Finding ways to integrate, instead of eliminate, separatist movements may be critical for rebuilding regional order.

Islamic Law Hunt Janin 2015-01-09 The sharia is a set of traditional laws that define a Muslim's obligations to God and his fellow human beings. Westerners often misunderstand the nature of the sharia, born as it is of a complicated legal and academic tradition that may not always seem relevant to today's world. Written for those unfamiliar with Islam, this volume provides an accurate and objective assessment of the sharia's achievements, shortcomings and future prospects. It explores the fundamentals of Islam and traditional sharia laws. In addition, the sharia is discussed with respect to Ottoman law, puritanism and jihad. The sharia's relevance to today's world events is also explored. Among items provided in appendices are a commentary on a Western translation of the concept of jihad and an analysis of the sharia in 29 selected countries.

Islamic Heritage Architecture and Art II G Passerini 2018-07-18 Papers presented at the 2nd International Conference on Islamic Heritage Architecture and Art are contained in this volume. The conference attracted important research highlighting the significance of Islamic heritage architecture and art to the world and its influence across different regions. The papers deal with the design of many types of buildings in Islamic countries, including not only the better known public buildings like mosques, mausolea, citadels and forts, but also houses and gardens, engineering works such as bridges and dams, irrigation systems and many others which have also had a profound impact on society. Traditional architecture and urban environment in most Islamic countries is now being eroded by overemphasis on a global type of architecture and city planning. As a consequence, many regions are losing their identity. The included studies review these developments in the light of what classical Islamic urban design and architecture has to offer modern society. Research contained in this book provides an analysis of the materials employed and the types of structural elements used, particularly those unique to Islamic architecture. Associated topics covered include music, textiles and ceramics, which are essential parts of the architectural fabric. Also looked at are construction materials, including not only stone and brick but also more perishable materials like adobe, wood and reeds. The preservation of heritage features also requires the development of appropriate conservation techniques in response to the different materials used and the ways structural forms work, including under extreme conditions, such as earthquakes. Academics, researchers, practitioners and government employees actively involved in the topic of Islamic heritage architecture and art will find this publication of interest.

Antioch Andrea U. De Giorgi 2021-05-31 This is a complete history of Antioch, one of the most significant major cities of the eastern Mediterranean and a crossroads for the Silk Road, from its foundation by the Seleucids, through Roman rule, the rise of Christianity, Islamic and Byzantine conquests, to the Crusades and beyond. Antioch has typically been treated as a city whose classical glory faded permanently amid a series of natural disasters and foreign invasions in the sixth and seventh centuries CE. Such studies have obstructed the view of Antioch's fascinating urban transformations from classical to medieval to modern city and the processes behind these transformations. Through its comprehensive blend of textual sources and new archaeological data reanalyzed from Princeton's 1930s excavations and recent discoveries, this book offers unprecedented insights into the complete history of Antioch, recreating the lives of the people who lived in it and focusing on the factors that affected them during the evolution of its remarkable cityscape. While Antioch's built environment is central, the book also utilizes landscape archaeological work to consider the city in relation to its hinterland, and numismatic evidence to explore its economics. The outmoded portrait of Antioch as a sadly perished classical city par excellence gives way to one in which it shines as brightly in its medieval Islamic, Byzantine, and Crusader incarnations. Antioch: A History offers a new portal to researching this long-lasting city and is also suitable for a wide variety of teaching needs, both undergraduate and graduate, in the fields of classics, history, urban studies, archaeology, Silk Road studies, and Near Eastern/Middle Eastern studies. Just as importantly, its clarity makes it attractive for, and accessible to, a general readership outside the framework of formal instruction.

ISIS Beyond the Spectacle Mehdi Semati 2020-04-02 What is ISIS? A quasi-state? A terrorist group? A movement? An ideology? As ISIS has transformed and mutated, gained and lost territory, horrified the world and been its punch line, media have been central to understanding it. The changing, yet constant, relationship between ISIS and the media, as well as its adversaries' dependency on media to make sense of ISIS, is central to this book. More than just the images of mutilated bodies that garnered ISIS its initial infamy, the book considers an ISIS media world that includes infographics, administrative reports, and various depictions of a post-racial utopia in which justice is swift and candy is bought and sold with its own currency. The book reveals that the efforts of ISIS and its adversaries to communicate and make sense of this world share modes of visual, aesthetic, and journalistic practice and expression. The short tumultuous history of ISIS does not allow for a single approach to understanding its relation to media. Thus, the book's contributions are to be read as contrapuntal analyses that productively connect and disconnect, providing a much-needed complex account of the ISIS-media relationship. This book was originally published as a special issue of Critical Studies in Media Communication.
