OCR Classical Civilisation A Level Components 23 and 24 Athina Mitropoulos 2017-08-24 This textbook

is endorsed by OCR and supports the specification for A-Level Classical Civilisation (first teaching September 2017). It covers Components 23 and 24 from the 'Culture and the Arts' Component Group: Invention of the Barbarian by Alastair Thorley Greek Art by Athina Mitropoulos and Laura Snook What image did the ancient Greeks have of themselves and others? How and why were men and women represented differently in Greek art? To what extent is modern western ideology still influenced by ancient Greek attitudes towards the east? This book offers both A-Level students and their teachers the opportunity to consider these and many other important questions. The ideas prevalent in fifth-century Athens retain their powerful influence across the modern world,

regardless of whether we agree that they should. The ideal preparation for the final examinations, all content is presented by experts and experienced teachers in a clear and accessible narrative. Ancient literary and visual sources are described and analysed, with supporting images. Helpful student features include study questions, quotations from contemporary scholars, further reading, and boxes focusing in on key people, events and terms. Practice questions and exam guidance prepare students for assessment. A Companion Website is available at www.bloomsbury.com/class-civ-as-a-level.

OCR as and a Level Computer Science P
M Heathcote 2016-09-12 The aim of this book is to provide detailed coverage of the topics in the new OCR AS and A Level Computer Science specifications H046 / H446. The book is divided into twelve sections and within each section, each chapter covers material that can comfortably be taught in one or two lessons. Material that is applicable only to the second year of the full A Level is clearly marked. Sometimes this may include an entire chapter and at other times, just a small part of a chapter. Each chapter contains exercises and questions, some new and some from past examination questions.

Answers to all these are available to teachers only in a free Teacher's Pack which can be ordered from our website www.pgonline.co.uk. This book has been written to cover the topics which will be examined in the written papers at both AS and A Level. Sections 10, 11 and 12 relate principally to problem solving skills, with programming techniques covered in sufficient depth to allow students to answer questions in Component 02. Pseudocode, rather than any specific programming language, is used in the algorithms given in the text. Sample Python programs which implement many of the algorithms are included in a folder with the Teacher's Pack.
