The Globalization of God Dara Molloy 2015-11-10 • Roman Catholicism was the first multinational corporation • Preaching was the forerunner of advertising • Roman Catholicism created the template for the spread of commercial globalisation through multinational corporations • For global Christianity to succeed all local expressions of Christianity had to be suppressed. These included Celtic Christianity. For 800 years the Roman church tried to break the independent spirit of Celtic Christianity • Despite being defeated in 1014 at the Battle of Clontarf, the Irish Vikings, through their urban bishops, were key actors in the imposition of Roman episcopal structures of church throughout Ireland in the 12th century • There was an 'invasion' of Norman monks to Ireland which began in 1142, twenty-five years before the military invasion in 1167 • The ecclesiastical colonisation of Ireland meant that: – a Roman episcopal and diocesan structure replaced the Celtic monastic structure – Norman colonisers destroyed Celtic monasteries and replaced them with imported European religious orders – Cistercian monasteries in Ireland were required to have French abbots and sometimes these were imposed by force – no Irishman was allowed to become a bishop or attain any ecclesiastical high office • St Malachy of Armagh betrayed his own Celtic heritage and was a key figure in bringing about the ecclesiastical colonisation of Ireland • Monotheism is the mythical container for globalization • Humans will fail to return to a sustainable way of living on this planet until the mythological container of monotheism is replaced by new bioregional spiritualities that go beyond both monotheism and polytheism

Celtic Flame T. M. Moore 2000-10-01 St. Patrick, the patron saint of the Irish people, is one of the best-loved but least known of the patriarchs of Christianity. His life and work have become the stuff of legend, myth, and tall tales – Patrick drove the snakes out of Ireland, taught the doctrine of the Trinity using a shamrock, and bested the high king's druids at Tara. Few, however, have ever taken the time to look into the heart of the great saint as this is revealed in his own writings. In Celtic Flame: The Burden of Patrick, theologian and poet T. M. Moore provides a look at the soul of the man – his calling to and love for the Irish people, his courage and determination in the face of obstacles and trials, and his profoundly personal faith in God. Using ancient documents, in particular, those from Patrick's own hand, the author allows the saint to speak for himself in a lively verse paraphrase supported by scholarly research, Scripture references, and a study guide for group or personal use. The lessons from Patrick's life and work – his piety, sense of calling, courage and conviction, and love for the people under his care – can be of much encouragement to those seeking a deeper and more meaningful experience of God today.

Aidan of Lindisfarne Ray Simpson 2014-07-09 Seventh-century Ireland is becoming a land of saints, scholars, and spiritual foster mothers as well as warriors. The boy Aidan, a descendant of Saint Brigid, is formed by all of these as well as by a pilgrimage, aborted by an Arab uprising, on which he meets a follower of the Prophet Muhammad. He is transferred to Iona, the mother-house of Saint Columba's family of monasteries, where his character is forged. Aidan becomes guest-master to challenging visitors, one of whom conducts a mysterious affair, suffers a midlife crisis, and develops friendships with royal Saxon exiles at the Dunadd court, the seat of the "real" King Arthur. Iona commissions Aidan to evangelize the original WASPs: the White, Anglo-Saxon Pagan invaders of Britain. Aidan offers a radically different approach to that of the Roman missionaries. His gentle grassroots gospel-sharing through friendship, his villages of God that model God's kingdom, his introduction of spiritual foster-mothers such as Hilda to the English, his soul friendships and heartbreaks with successive saintly and power-hungry kings, and his near-death foresight into the future take us inside the heroic spiritual formation of a person and a people in a story that has contemporary significance. Even Aidan's name, Flame, tells a story of its own

Dreadful David Margolick 2013-06-04 American author John Horne Burns (1916–1953) led a brief and controversial life, and as a writer, transformed many of his darkest experiences into literature. Burns was born in Massachusetts, graduated from Andover and Harvard, and went on to teach English at the Loomis School, a boarding school for boys in Windsor, Connecticut. During World War II, he was stationed in Africa and Italy, and worked mainly in military intelligence. His first novel, The Gallery (1947), based on his wartime experiences, is a critically acclaimed novel and one of the first to unflinchingly depict gay life in the military. The Gallery sold half a million copies upon publication, but never again would Burns receive that kind of critical or popular attention. Dreadful follows Burns, from his education at the best schools to his final years of drinking and depression in Italy. With intelligence and insight, David Margolick examines Burns's moral ambivalence toward the behavior of American soldiers stationed with him in Naples, and the scandal surrounding his second novel, Lucifer with a Book, an unflattering portrayal of his experiences at Loomis.

Paris to the Pyrenees David Downie 2021-11-15 Part adventure story, part cultural history, this "enjoyably offbeat travelogue" explores the phenomenon of the spiritual pilgrimage (Booklist). Driven by curiosity, wanderlust, and health crises, Downie and his wife walk across Paris on the old pilgrimage route Rue Saint-Jacques then trek about 750 miles south to Roncesvalles, Spain. The eccentric route would take 72 days on Roman roads and The Way of Saint James, the 1,100-year-old pilgrimage network leading to the sanctuary of Saint James the Greater in Spain. It is best known as El Camino de Santiago de Compostela - The Way for short. The object of any pilgrimage is an inward journey manifested in a long, reflective walk. For Downie, the inward journey meets the outer one. More than 20,000 pilgrims take the highly commercialized Spanish route annually, but few cross France. Downie had a goal: to go from Paris to the Pyrenees on age-old trails, making the pilgrimage in his own maverick way.

Celtic Mythology: Religion of The Iron Age Celts Sebastian Berg 2021-08-13 Celtic mythology is one of the most ancient mythologies in the European continent Celtic mythology shows marked similarities between Christian Biblical stories and ancient tales of Celtic folklore. Brendan's Return Voyage: A New American Dream Ray Simpson 2021-03-31 A myth is reviving in the USA, which recent research validates, that Saint Brendan voyaged over three thousand miles from Ireland to America to evangelize it, but when the Indians near the Mississippi welcomed him, he realized Jesus was already there. In humility he returned home. In contrast, USA missions have taken a colonial approach to evangelizing Native American tribes, requiring converts to rubbish their culture and accept white culture as Christian. This book discerns the Creator's imprints in indigenous tribes. It identifies some fault-lines in USA (and Western) society and church, e.g., white supremacy, manifest destiny, and the twin towers of empire-building and separatism. Churches need to repent of these false gods. They need to break free from the prison of consumerism and become open to the prophetic spirit. The book also explores the Creator's imprints in white American culture, and the Christian spirituality of the Euro-Americans' "indigenous" forbears, the Celts. The book outlines ways in which, in these fading decades of Western supremacy, and despite polarization, indigenous, settler, and immigrant peoples may journey together as modern followers of the Way. Those who rise to this challenge undertake a new Brendan's Voyage and create a new American dream.

Curtis Coats 2015-11-19 We live in a media age where technologies become the sites and sources of our practices and beliefs, including those deeper values that guide decisions about how we should live. Practical Spiritualities in a Media Age explores how and why media become the site and source of spiritual expressions that address the mundane or everydayness of our lives. Including international case studies and essays from leading scholars such as Stewart Hoover and Graham Harvey, the book examines the ways and the places in which people have employed media and information technologies to weave spiritual meaning throughout the demands and pastimes of their lives. Topics range from food and sex to spiritual tourism. In doing so, the volume takes up a call from Paul Heelas' seminal work, Spiritualities of Life, to provide more examples, more richness and more depth to the variety of spiritual practices that exist in late modernity. Providing critical, scholarly explorations of the complexities and contradictions of late-modern spiritual practices, Practical Spiritualities in a Media Age is a must-read for anyone working in the intersection of media, religion or spirituality, and culture.
