**The Incarceration of Women** L. Moore 2013-11-26 This unique book provides a rare insight into the debilitating impact of regimes that fail to respond to the complex and gender specific needs of women behind bars. Exploring the marginalization, mental health and experiences of women in prison, it specifically focuses on the legacy of women's imprisonment in Northern Ireland.

**Gender, Nationalism and Conflict Transformation** Fidelma Ashe 2019-03-07 Utilising Northern Ireland as a case study, this book presents an analysis of the gender and sexual politics of conflict transformation. The book synthesises a vast array of international sources with the author's empirical and theoretical research to produce a powerful gendered critique of conflict transformation in Northern Ireland. It maps the negative effects of the region's violent conflict on gender and sexual equality and explores the potential of the conflict transformational processes, set in motion by the 1998 Peace Agreement, to transform relationships between different genders and sexualities. Starting from the feminist proposition that building peace requires the inclusion of issues of gender and sexual equality, the author analyses how the new institutional and semantic structures of conflict transformation in Northern Ireland preserved older conservative narratives about gender and sexuality. As older narratives clashed with progressive forms of sexual and gender politics, the core sites of conflict transformation became arenas of gender and sexual struggles. The book outlines these struggles, and charts the positive and inclusive visions of peace developed by activists throughout the period of conflict transformation. This book will be of much interest to students of gender studies, conflict transformation, ethnic conflict, peace studies and Irish politics.

**The Routledge Handbook of Irish Criminology** Deirdre Healy 2015-12-14 The Routledge Handbook of Irish Criminology is the first edited collection of its kind to bring together the work of leading Irish criminologists in a single volume. While Irish criminology can be characterised as a nascent but dynamic discipline, it has much to offer the Irish and international reader due to the unique historical, cultural, political, social and economic arrangements that exist on the island of Ireland. The Handbook consists of 30 chapters, which offer original, comprehensive and critical reviews of theory, research, policy and practice in a wide range of subject areas. The chapters are divided into four thematic sections: Understanding crime examines specific offence types, including homicide, gangland crime and white-collar crime, and the theoretical perspectives used to explain them. Responding to crime explores criminal justice responses to crime, including crime prevention, restorative justice, approaches to policing and trial as well as post-conviction issues such as imprisonment, community sanctions and rehabilitation. Contexts of crime investigates the social, political and cultural contexts of the policymaking process, including media representations, politics, the role of the victim and the impact of gender. Emerging ideas focuses on innovative ideas that prompt a reconsideration of received wisdom on particular topics, including sexual violence and ethnicity. Charting the key contours of the criminological enterprise on the island of Ireland and placing the Irish material in the context of the wider European and international literature, this book is essential reading for those involved in the study of Irish criminology and international and comparative criminal justice.

**Human Rights and Incarceration** Elizabeth Stanley 2018-08-09 This collection considers human rights and incarceration in relation to the liberal-democratic states of Australia, New Zealand and the UK. It presents original case-study material on groups that are disproportionately affected by incarceration, including indigenous populations, children, women, those with disabilities, and refugees or 'non-citizens'. The book considers how and why human rights are eroded, but also how they can be built and sustained through social, creative, cultural, legal, political and personal acts. It establishes the need for pragmatic reforms as well as the abolition of incarceration. Contributors consider what has, or might, work to secure rights for incarcerated populations, and they critically analyse human rights in their legal, socio-cultural, economic and political contexts. In covering this ground, the book presents a re-invigorated vision of human rights in relation to incarceration. After all, human rights are not static principles; they have to be developed, fought over and engaged with.

**The Routledge International Handbook of Penal Abolition** Michael J. Coyle 2021-03-31 The Routledge International Handbook of Penal Abolition provides an authoritative and comprehensive look at the latest developments in the 21st-century penal abolitionism movement, both reflecting on key critical thought and setting the agenda for local and global abolitionist ideas and interventions over the coming decade. Penal abolitionists question the legitimacy of criminal law, policing, courts, prisons and more broadly the idea of punishment, to argue that rather than effectively handling or solving social problems, interpersonal disputes, conflicts and harms, they actually increase individual and societal problems. The Routledge International Handbook of Penal Abolition is organized around six key themes: Social movements and abolition organizing Critical resistance to the penal state Voices from imprisoned and marginalized communities Diversity of abolitionist thought International perspectives on abolitionism Building new justice practices as a response to social and individual wrongdoing. A global-centred and world-encompassing project, this book provides the reader with an alternative and critical perspective from which to reflect and raises the visibility of abolitionist

ideas and strategies in a time when there is considerable discussion of how we will move forward in response to what has given rise to the criminalizing system: white supremacy, racial capitalism and human wrongdoing. It is essential reading for all those engaged with punishment and penology, criminology, sociology, corrections and critical prisons studies. It will appeal to any reader who seeks an innovative response to the calamitous failures of the modern criminalizing system.

**Northern Ireland Yearbook** Michael McKernan 2004-03 The Northern Ireland Yearbook is an invaluable resource for anyone who has any kind of interest in Northern Ireland. **Forensic Psychiatry** John Gunn 2014-01-06 Highly Commended, BMA Medical Book Awards 2014 Comprehensive and erudite, Forensic Psychiatry: Clinical, Legal and Ethical Issues, Second Edition is a practical guide to the psychiatry of offenders, victims, and survivors of crime. This landmark publication has been completely updated but retains all the features that made the first edition such a well-established text. It integrates the clinical, legal, and ethical aspects of forensic psychiatry with contributions from internationally regarded experts from a range of clinical professions. The Second Edition features updates to all current chapters and several new chapters that explore: The genetics of antisocial behavior Disorders of brain structure and function that relate to crime Offenders with intellectual disabilities Older people and the criminal justice system Deviant and mentally ill staff Although the book focuses on jurisdictions in the UK, a substantial comparative chapter written by an international group from all five continents explores the different philosophies, legal principles, and style of services elsewhere. This book is an essential reference for specialists and postgraduate trainees in forensic psychiatry but also for general psychiatrists, and clinical and forensic psychologists. It is also an invaluable resource for other forensic mental health professionals, including nurses, social workers, occupational therapists, probation service staff, police, attorneys, criminologists, and sociologists.

**Clinical Topics in Old Age Psychiatry** Julian Hughes 2020-09-17 An overview of important current subjects in old age psychiatry, demonstrating the depth and breadth of the speciality.

**The Impact of Covid-19 on Prison Conditions and Penal Policy** Frieder Dunkel 2022-04-14 The Impact of COVID-19 on Prison Conditions and Penal Policy presents the results of a worldwide exchange of information on the impact of COVID-19 in prisons. It also focuses on the human rights questions that have been raised during the pandemic, relating to the treatment of prisoners in institutions for both juveniles and adults worldwide. The first part brings together the findings and conclusions of leading prison academics and practitioners, presenting national reports with information on the prison system, prison population rates, how COVID-19 was and is managed in prisons, and its impact on living conditions inside prisons and on reintegration programmes. Forty-four countries are covered – many in Europe, but also Argentina, Brazil, Chile, Colombia, Perú, Costa Rica, Canada, the USA, Kenya, South Africa, China, India, Japan, Australia and New Zealand. In the second part, thematic chapters concentrate explicitly on the impact of the pandemic on the application of international human rights standards in prisons and on worldwide prison population rates. The book concludes by drawing out the commonalities and diverging practices between jurisdictions, discussing the impact of measures introduced and reflecting on what could be learnt from policies that emerged during the pandemic. Particular attention is paid to whether "reductionist" strategies that emerged during the pandemic can be used to counteract mass incarceration and prison overcrowding in the future. Although the book reflects the situation until mid 2021, after the second and during the third wave of the pandemic, it is highly relevant to the current situation, as the living conditions in prisons did not change significantly during the following waves, which showed high infection rates (in particular in the general population), but increased vaccination rates, too. In prisons, problems the pandemic raises have an even greater impact than for the general society. Revealing many notable and interesting changes in prison life and in release programmes, this book is essential reading for students and scholars of penology, criminology, law, sociology and public health. It will also appeal to criminal justice practitioners and policy makers.

**Diverse roles for Occupational Therapists** Jane Clewes 2016-11-30 Diverse roles for occupational therapists is a compilation of a range of roles for occupational therapists. Authors show how they have embraced opportunities, extended roles, and developed services along with the ever-changing world of statutory services policy. Whilst many of the chapters allude to mental health fields (care coordination, a number of mental health specialities, Mental Health Act), the book also includes topics relevant to general practice (research roles, advanced practice, Assistive Technology, the Mental Capacity Act). This book is intended to inform and inspire the reader, to share ways of dealing with hurdles whilst remaining resilient to prevailing pressures and difficulties borne out of our working lives as occupational therapists in a wide range of settings. Contents include: Occupational therapists as care coordinators Occupational therapists and assertive outreach Occupational therapists working in a Crisis Home Treatment Team Occupational therapy on a Psychiatric Intensive Care Unit Prison inreach: the occupational therapist role Social groups within an intensive mental health team, and creative methods for evaluating the service Occupational therapists delivering Recovery Occupational therapists delivering rehabilitation Roles in vocational rehabilitation Occupational therapists delivering assistive technology The child and adolescent primary mental health work role Enabling young people's participation in their mental health service Working with families Early intervention with psychosis: the occupational therapist's role Working with people with personality disorder Working with people with eating disorders Occupational therapists as cognitive behaviour therapists Improving Access to Psychological Therapies The Approved Mental Health Professional role Roles associated with the Deprivation of Liberty Safeguards The occupational therapist as an advanced practitioner Research roles for occupational therapists

**Country Reports on Human Rights Practices** 1999

**Dangerous People** Bernadette McSherry 2011-11-28 Experienced legal academics and mental health professionals explore the current approaches to “dangerousness” and preventive detention. The defining characteristics of those deemed dangerous by society vary according to culture, place, and time, and the contributors to this text have gathered to analyze the policies and practices related to current out-groups such as sex offenders, suspected terrorists, and young offenders in the United States, Scotland, England, and Australia. *Dangerous People* is the result of their research, workshopping, and writing. The text is organized logically and begins with a section on Parameters that explores the international human rights and legal limitations related to preventive detention schemes. It moves on to Policy, where contributors examine legislative policy, and Prediction, or risk assessment, especially in terms of violent crimes in youth. The section on Practice focuses on recent schemes to prevent re-offending. This text is indispensable as a resource that deals with the practical issues surrounding preventive detention and supervision schemes, the assessment of the risk of future harm in offenders, and different programs and sentencing options for high-risk offenders with mental illnesses. It contains case examples that bring real-life issues to light and sets forth an agenda to provide effective ways to protect communities from harm.

*Human Rights in Northern Ireland* United States 1997

*The Irish Abortion Journey, 1920–2018* Lindsey Earner-Byrne 2019-01-30 This book reframes the Irish abortion narrative within the history of women’s reproductive health and explores the similarities and differences that shaped the history of abortion within the two states on the island of Ireland. Since the legalisation of abortion in Britain in 1967, an estimated 200,000 women have travelled from Ireland to England for an abortion. However, this abortion trail is at least a century old and began with women migrating to Britain to flee moral intolerance in Ireland towards unmarried mothers and their offspring. This study highlights how attitudes to unmarried motherhood reflected a broader cultural acceptance that morality should trump concerns regarding maternal health. This rationale bled into social and political responses to birth control and abortion and was underpinned by an acknowledgement that in prioritising morality some women would die.

**Essentials of Mental Health Nursing** Karen Wright 2018-02-20 This ground-breaking textbook gathers contributions from service users, expert practitioners and leading academics to help students develop the core knowledge and skills they need to qualify as mental health nurses. Focusing in particular on helping students apply person-centred, compassionate and recovery-focused care, service-user voices and practical case studies are integrated throughout the book. Students are also given a rounded understanding of the key debates they will face in practice through the exploration of both bio-medical and psycho-social approaches. Key features include: Voices and case studies from real practising nurses and students help students apply knowledge to practice. Critical thinking activities, debates, and ‘What’s the Evidence’ summaries help students develop higher level critical thinking and evidence based practice skills. Further reading and free SAGE journal articles facilitate independent learning. Online MCQs and Flashcards make revision simple and fun. The free interactive ebook gives students the freedom to learn anywhere! Online Lecturer resources: free MCQs, video debates, SAGE journal articles and more, which can be used for flipped classroom activities or lectures to make teaching more interactive.

**Treatment Systems Overview** Richard Muscat 2010-01-01 In an effort to make knowledge available about how treatment systems for drug users are organised in different countries, and to facilitate bi- and multilateral co-operation and research, this publication presents an overview of the treatment systems of 22 of the 35 Pempidou Group member countries. In most of Europe, the focus of drug treatment in the 1980s and 1990s was on heroin. And the introduction of substitution treatment. However, a shift to cater for polydrug use is now taking place across Europe. The diversity of treatment systems reflects the complexity of the local legal, political, economic and cultural context of drug problems. This source of good practices for making treatment accessible and available will be useful not only for policy makers and practitioners, but also for user groups, researchers and the wider public as well.

**The Irish Yearbook of International Law, Volume 3, 2008** Jean Allain 2011-02-28 The Irish Yearbook of International Law is intended to stimulate further research into Ireland's practice in international affairs and foreign policy, filling a gap in existing legal scholarship and assisting in the dissemination of Irish thinking and practice on matters of international law. On an annual basis, the Yearbook presents peer-reviewed academic articles and book reviews on general issues of international law. Designated correspondents provide reports on international law developments in Ireland, Irish practice in international fora and the European Union, and the practice of joint North-South implementation bodies in Ireland. In addition, the Yearbook reproduces documents that reflect Irish practice on contemporary issues of international law. Publication of the Irish Yearbook of International Law makes Irish practice and opinio juris more readily available to Governments, academics and international bodies when determining the content of international law. In providing a forum for the documentation and analysis of North-South relations the Yearbook also makes an important contribution to post-conflict and transitional justice studies internationally. As a matter of editorial policy, the Yearbook seeks to promote a multilateral approach to international affairs, reflecting and reinforcing Ireland's long-standing commitment to multilateralism as a core element of foreign policy.

*Irish Yearbook of International Law* Fiona de Londras 2014-12-04 The Irish Yearbook of International Law (IYIL) supports research into Ireland's practice in international affairs and foreign policy, filling a gap in existing legal scholarship and assisting in the dissemination of Irish thinking and practice on matters of international law. On an annual basis, the Yearbook presents peer-reviewed academic articles and book reviews on general issues of international law. Designated correspondents provide reports on international law developments in Ireland, Irish practice in international bodies, Ireland and the Law of the Sea and the law of the European Union as relevant to developments in Ireland. In addition, the Yearbook reproduces key documents that reflect Irish practice on contemporary issues of international law. Publication of the Irish Yearbook of International Law makes Irish practice and opinio juris more readily available to Governments, academics and international bodies when determining the content of international law. **Criminal Justice in Transition** Anne-Marie McA Linden 2015-11-12 This book represents a critical examination of key aspects of crime and criminal justice in Northern Ireland which will have resonance elsewhere. It considers the core aspects of criminal justice policy-making in Northern Ireland which are central to the process of post-conflict transition, including reform of policing, judicial decision-making and correctional services such as probation and prisons. It examines contemporary trends in criminal justice in Northern Ireland and various dimensions of crime relating to female offenders, young offenders, sexual and violent offenders, community safety and restorative justice.

The book also considers the extent to which crime and criminal justice issues in Northern Ireland are being affected by the broader processes of 'policy transfer', globalisation and transnationalism and the extent to which criminal justice in Northern Ireland is divergent from the other jurisdictions in the United Kingdom. Written by leading international authorities in the field, the book offers a snapshot of the cutting edge of critical thinking in criminal justice practice and transitional justice contexts.

**Law in Northern Ireland** Brice Dickson 2018-06-28 Law in Northern Ireland is the essential textbook for all students of Northern Ireland's legal system. Changes to this new edition – some of them substantial – have been made to every section, taking full account of five years of developments. The book explores the evolution of law-making in Northern Ireland before going on to explain the relevant constitutional arrangements, how to identify and interpret applicable sources of law, and what are the fundamental rules and principles of public law, criminal law and private law, highlighting where appropriate what may be unusual about them. It contextualises the myriad of legal institutions operating in the jurisdiction, sets out how criminal and civil proceedings work in practice and provides useful information on how people become lawyers, what lawyers actually do once they become qualified and how the legal system is funded. The appendices set out some sample sources of law so that readers can familiarise themselves with what is involved in handling legal documents. The language throughout is accessible and there are Tables of Cases and Legislation, as well as a comprehensive index.

*Human Rights in Northern Ireland* Brice Dickson 2015-02-26 This Handbook is the latest version of a book that was last published in 2003, and has been completely revised to take account of the innumerable legal developments since then. The book contains 26 chapters on topics ranging across the full spectrum of civil, political, social, economic and environmental rights, with particular emphasis on the right not to be discriminated against. It is currently the most comprehensive and practical publication on the state of human rights in Northern Ireland. This is a part of the world where, as well as ongoing issues arising out of the conflict ('emergency laws' are still in place, for example), there are familiar questions concerning the rights of people with poor mental health, the law relating to family and sexual matters, children's rights, education rights, employment rights, housing rights, and social security rights. The contributors to the book are all experts in their field, most of them with years of experience as human rights activists and advisers. The book provides precise information about relevant legislation and case law (on which there are tables) and is fully indexed.

*Women Exiting Prison* Bree Carlton 2013-05-02 Women’s incarceration is on the rise globally and this has significant intergenerational, economic and humanitarian costs for communities across the world. While there have been efforts to implement reform, particularly in countries such as Canada, UK, US and Australia, the growing evidence suggests women’s prisons and the support structures surrounding them are in crisis. This collection of critical essays presents groundbreaking research on women’s post-imprisonment policy, practice and experiences. It is the first collection to offer international perspectives on gender, criminalisation, the effects of imprisonment and women-centred approaches to the short and long-term support of women exiting prison. It offers cutting-edge insights into contemporary policy developments and women’s experiences across the US, the UK, Australia, Canada and Northern Ireland. The collection makes two important contributions. First, it marks a departure from an instrumental and individual focus on ‘what works’ to reduce women’s offending and re-offending behaviour - a prevailing approach within competing collections focused on post-release issues. Second, it presents critical, original research with robust empirical foundations to revive feminist criminological engagement around gender, imprisonment, and most critically, post-release management, support and survival. The collection will appeal to academics and community-based advocates, activists, lawyers and practitioners engaged in advocacy and service provision for imprisoned women. It is also an important and unique analysis for undergraduate and postgraduate students studying criminological and social science courses particularly those related to gender and crime, imprisonment and correctional policy and qualitative research methods.

**Mental Health Law in England and Wales** Paul Barber 2012-01-26 This revised second edition is a complete guide to the Mental Health Act 1983, as amended by the 2007 Act, and is a comprehensive and up-to-date reference work for any mental health professional - from social workers and occupational therapists, to GPs and nurses. It will also be of value to patients and their relatives and carers. Featuring clear guidance on how mental health law operates in practice, this book also describes in close detail how people can be admitted to psychiatric hospital or treated within the community. This revised second edition contains important updates including the Mental Health Tribunal Practice Directions and the recent introduction of the Care Quality Commission and the Health Inspectorate (Wales). The 2007 amendment to the Mental Health Act provides a legal basis for informal admission, compulsory admission (sometimes referred to as 'sectioning'), as well as guardianship and the new Community Treatment Order, and this too is covered and explained. Also dealt with are the provisions for mentally disordered offenders who may come into mental health services via the courts or by being transferred from prison. Written by a Solicitor, a Mental Health Act Commissioner and an Approved Social Worker with working experience of putting the law into practice, this book includes: " The full text of the main body of the Mental Health Act (as amended) , as well as the relevant rules and regulations. " Practical advice and checklists for working with the Act. " Updated Case Law and relevant case examples to illustrate key points.

**Handbook of Forensic Mental Health** Keith Soothill 2012-08-21 This is a comprehensive reference book on the subject of forensic mental health, looking at what forensic mental health is and its assessment, management and treatment. It focuses on key topics and the issues underpinning them in contemporary society. The book includes: an account of the historical development of forensic mental health, along with a description of the three mental health systems operating in the UK an in-depth analysis of the forensic mental health process and system, including an analysis of the different systems applied for juveniles and adults an examination of the main issues in forensic mental health including sex offending, personality disorders and addiction a breakdown of the key skills needed for forensic mental health practice. This is an authoritative reference book which will be a crucial text for practitioners, academics and students in the forensic mental health field.

**The Northern Ireland Prison Service** Great Britain: Parliament: House of Commons: Northern Ireland Affairs Committee 2007-12-12 With around 1500 prisoners and an estate of three prisons, the Northern Ireland Prison Service is a very small prison service. This inquiry was undertaken to examine whether the estate was adequate and appropriate for the secure accommodation of Northern Ireland's prisoners and whether the Prison Service meets the health, education and training needs of prisoners. One of the main conclusions is that the Current Comprehensive Spending Review does not provide sufficient capital for the substantial redesign of the prison estate. If criminal justice is to be devolved the Committee hope that capital investment in the prison estate will be a priority of the Northern Ireland Executive. If not the Secretary of State will have to argue for an increase in funding.

**Women, Punishment and Social Justice** Margaret Malloch 2013-02-15 The prison has often been the focus for concerns about human rights violations, and campaigns aimed at achieving social justice, for those with an interest in the criminalisation of women. To reduce the number of women imprisoned, a range of policy initiatives have been developed to increase the use of community-based responses to women in conflict with the law. These initiatives have tended to operate alongside reforms to the prison estate and are often defined as 'community punishment', 'community sanctions' and 'alternatives to imprisonment'. This book challenges the contention that improved regimes and provisions within the criminal justice system are capable of addressing human rights concerns and the needs of the criminalised woman. This book aims to provide a critical analysis of approaches and experiences of penal sanctions, human rights and social justice as enacted in different jurisdictions within and beyond the UK. Drawing on international knowledge and expertise, the contributors to this book challenge the efficacy of gender-responsive interventions by examining issues affecting women in the criminal justice system such as mental health, age, and ethnicity. Crucially, the book will engage with the paradox of implementing rights within a largely punishment-orientated system. This book will be of interest to those taking undergraduate and post-graduate courses that examine punishment, gender and justice, and which lend themselves to an international / comparative aspect such as criminal justice/criminology, (international) criminal justice courses; sociology as well as professional training for practitioners (criminal justice, social work, health) who work with women in the criminal justice system.

**Youth Justice in Context** Mairéad Seymour 2012-10-15 Youth Justice in Context examines the influence of legislative, organizational, policy and practice issues in shaping what constitutes compliance and how non-compliance is responded to when supervising young offenders in the community. It also addresses the impact of adolescent developmental

immaturity and social and personal circumstances in mediating expectations of compliance. A central concern of the book is to explore the manner in which compliance changes over time through the dynamics that arise in the supervisory relationship between practitioners and young people, and against the backdrop of the social and psychological changes that occur in adolescents' lives as they move towards early adulthood. A detailed examination is provided based on the perspectives of probation and youth justice professionals operating across different organizational contexts, and of young people subject to community supervision. To this end, the book offers in-depth analysis on the strategies employed by practitioners in promoting compliance and responding to non-compliance. It also provides unique insights into young people's perceptions of the supervision process, their motivations to comply, and their perspectives on desistance from offending. This book offers an alternative perspective to policies and practices that focus primarily on stringent enforcement and control measures in responding to non-compliance. Youth Justice in Context is suited to academics, researchers, students, policy makers, social workers, probation officers, youth justice workers, social care workers and other practitioners working with young people in the criminal justice system.

**Responding in Mental Health-Substance Use** David B. Cooper 2020-09-23 Mental health-substance use is a complex interrelation, with equally complex implications for individuals and their families, health professionals and society. Although its international recognition as an issue of critical importance is growing, clear guidance for professionals on mental health-substance use and its treatment is hard to find. The Mental Health-Substance Use series addresses this need, concentrating on concerns, dilemmas and concepts that impact on the life and well-being of affected individuals and those close to them, and the future direction of practice, education, research, services, interventions, and treatment. Having outlined the field and service development in previous books, the third book in the series explores how professionals can best respond to the particular concerns and dilemmas arising from and in mental health-substance use for individuals and their families. It aims to inform, develop and educate these responses by sharing knowledge and enhancing expertise in this fast-developing field by exploring the interrelated psychological, physical, social, legal and spiritual experiences. The volumes in this series are designed to challenge concepts and stimulate debate, exploring all aspects of the development in treatment, intervention and care responses, and the adoption of research-led best practice. They are essential reading for mental health and substance use professionals, students and educators.

**Comparing Devolved Governance** D. Birrell 2012-03-29 Examines recent evidence of a growing symmetry in the operation of devolution in Scotland, Wales and Northern Ireland. This book makes one of the first systematic and detailed comparisons of the operation of the devolved institutions and machinery of governance.
