Psychiatry Board Review Dr. Rajesh Tampi 2017-03-29 The field of psychiatry is evolving rapidly specifically in the areas of classification of many psychiatric disorders, psychopharmacology and psychotherapeutics. The new Diagnostic and Statistical Manual of Mental Disorders: DSM-5 which was introduced in 2013 forms the basis of the new classification system in psychiatry. The American Board of Psychiatry and Neurology is also in the process of phasing in DSM-5 criteria to the board examination, such that by 2017 the examination material will exclusively reflect the new manual. As psychiatric trainees and psychiatrists prepare for their certification and recertification examinations using the new classification system, a new board review textbook is imperative to address these changes in order to prepare them for the certification examinations as well as for their clinical practice. To help with this process we have compiled a list of 1000 questions and answers in psychiatry and neurology using the most current information available in the field and using the DSM 5 classification system. This book has been specifically written for the busy professional who does not have the time to access numerous resources necessary to prepare for professional examinations.

The Memoirs of an Immigrant Joseph Molitorisz 2001-10-01 Seventy years. A lifetime beginning in a tranquil Hungarian village, growing in a tragic time of political and ideological turmoil, the horrors of the Second World War, the humiliation of imprisonment in an American POW camp, the tyranny of Bolshevism, the crushing defeat of the 1956 Hungarian Revolution. This is a captivating account of the nightmarish side of the 20th Century. Then, joining the tens of thousands of other refugees, the author's search for a better life begins. Destination: America, the land of freedom. But life in the adopted homeland is marked by struggle and dogged determination to make good on a dream. The author unflinchingly chronicles the immigrant experience. This book is for readers who have the strong urge to look beyond the surface of what has been purported to be the 20th Century. This is not a writing of history. It is rather the writing of a life through which history reveals itself to those who have a receptive, critical mind and an open, compassionate heart.

Heer van de vliegen William Golding 2016-03-11 Nog altijd even opwindend en tot nadenken stemmend als toen het in 1954 verscheen, schept 'Heer van de vliegen' een gewelddadig, treff end beeld van de menselijke natuur, en wat er met deze gebeurt als de beschaving ten onder gaat. Een groep schooljongens stort neer op een onbewoond eiland. Zonder ouders of ander volwassen toezicht moeten ze met elkaar samenwerken om te overleven, waar ze jammerlijk in falen. Hun strijd om het bestaan krijgt geleidelijk steeds meer barbaarse trekken. Heer van de vliegen werd bij verschijning met lof overladen, maar commercieel succes bleef in eerste instantie uit. Geleidelijk aan werd het echter een cult-favoriet onder studenten en critici, en werd het vaak vergeleken met Salingers De vanger in het graan wat betreft invloed op de moderne literatuur.

Islam and Modernity Abdessalem, Rafik 2019-07-18 In this compelling book, Rafik Abdessalem unpacks two major lines of thought. Firstly, he examines why many Westerners dismiss Islam's vast intellectual, social, theological and cultural heritage as flawed, violent, rigid and fanatical, despite knowing virtually nothing about it. He usefully traces the genesis of this attitude, focusing on how scholars such as Weber, Habermas and others have helped to consolidate the West's view of itself as civilised, superior, developed and progressive, and how the demonisation of Islam acts as a necessary foil for these notions. Secondly, he explains that Islam is subject to a variety of interpretive choices and schools of thought ranging from legalistic fundamentalism, through rigid rationalism, to spiritual Sufism. By treating Islam, secularity and modernity as distinct and separate, rather than as interconnected and overlapping, Abdessalem makes no attempt to reconcile Islam with modernity or secularity, nor does he place one in opposition to the other. Instead, he looks at the interconnections between these broad and complex subjects. Abdessalem's analysis is useful in encouraging us to rethink both modernity and Islam, and their relationship with each other. In this rethinking lies the potential for a better understanding of the geopolitics of what is often called 'the Muslim world', including the MENA region.

Achievement Testing in U.S. Elementary and Secondary Schools Joan Baker 2006 The concept and results of achievement testing are the subject of serious conversation for many Americans - from educators to legislators. However, few teachers and parents view such testing as an integral part of teaching and learning. Testing standards of key education organizations and opinions of concerned citizens may be fleeting guides. The history of testing, the process for developing a formal test, testing abuse, misuse, and limitations are not widely known or understood even though we realize that testing is critical and here to stay. Achievement Testing explains the complicated concepts in a clear and user-friendly way to beginning teachers and students, as well as to experienced teachers who are looking for guidance in the ever-changing educational landscape.

The Winning Formula Akin O. Akindele 2002-03-12 This book is about life and how to attain or approximate our most important aspirations. It is designed to benefit everyone involved in any kind of venture, or relationship. The book is especially important to people who, on a daily basis, have to achieve important (personal or business) objectives by persuading others to see things their way, or at least to meet them half way for a constructive and beneficial outcome. This book is about life in all of its aspects. It attempts to reach and be helpful to each reader in most aspects of life, which the reader may need to improve, or re-evaluate. Part of the objective of this book is to make a person acting in an informed manner, become more comfortable with the choices that may from time to time be made. Understanding why those choices were made, and owning the benefits and being prepared to stoically deal with the attendant consequences that may flow from those choices. To be sure, this book is partly a concession to the sometimes unfathomable world in which we live. It is therefore no more than my own imperfect effort of attempting to make some sense out of how and why things are the way they are. How and why things have tended to work best for most people who have been deemed successful in various aspects of human endeavor, whether as a great parent, effective leader, a good advocate, an inspired creator of abundant wealth, an admired citizen, a trusted partner, or a great friend. Briefly, therefore, this book is divided into three broad chapters. Each chapter is further sub-divided into appropriate sections, for an easy and hopefully logical flow. Chapter one attempts to lay out the general foundation for the kinds of issues and challenges to be addressed. Chapter two addresses these issues in the context of various life circumstances and relationships we each find, or may from time to time, find ourselves. Chapter three, the last chapter, hopefully succeeds in tying it all together. The goal of the book is achieved. By the time one completes reading the book, each reader will be able to identify a personal road map for success. And this road map is applicable to whatever field of endeavor, or aspect of life, that each person may desire greater measure of success. As we each pursue our respective aspirations which could range from a desire to be loved and embraced; a quest to be perceived as worthy; an important recognition, respect, reward, or some other opportunity, it is very important to be very cognizant of the kinds of actions, attitude, or mind set, that are more likely than not, to aid us in attaining the ultimate goal we crave. I call the constructive application of these various life tenets, THE WINNING FORMULA.
